REPUBLICAN SPECIAL.
Saratoga, Sept. 21.—The State Democratic Union held its first time in more than a decade a tremendous night under the stars of New York, and an implication to the party in the rest of the country—these are the results of the convention, which today closed at the Saratoga Hotel, after a session of two days.

The selection of Judge Daniel Cody Herrick of Albany as the candidate for Governor was made in the sixteenth year of its existence at a time when it seemed to some of the delegates that the ticket would be a success. The ticket was chosen by a vote of 1,000 to 1,000, and the delegates were unanimous in their support of the ticket.

MURPHY DETERMINED.
But Charles F. Murphy, the leader of Tammany, held aloof from an endorsement of Mr. Grout. When pressed, he declared against Mr. Grout, and suggested that Grout would be slaughtered in Manhattan because the Tammany leadership could not find a candidate to vote for one who had changed his municipal politics so often and who had fought the Tammany organization twice in three years.

There were then only two things to do: either to endorse Mr. Grout, or to endorse Mr. Murphy. The delegates decided to endorse Mr. Murphy, and the ticket was chosen by a vote of 1,000 to 1,000, and the delegates were unanimous in their support of the ticket.

THE KING'S RAILING.
The King's Railroad was a resolution which empowered Mr. McCarran to name any candidate in the convention who would unite the party. It was clear after that, five minutes after the King's Railroad was passed, Mr. McCarran had been decided on as the candidate for New York City and Francis Harrison of New York City had been decided on as the candidate for New York City.

TAGGART SATISFIED WITH SITUATION IN MIDDLE WEST.

REPUBLICAN SPECIAL.

New York, Sept. 21.—Thomas Taggart, chairman of the Democratic National Committee, who has just returned from a protracted tour of the Middle Western States, says:

"Things have never been in better shape in Indiana since 1892, when we carried the State. The organization of our party in Indiana is complete and all that could possibly be desired. Friday, I met the prominent Democratic leaders of the State, including every man of influence. Every prominent Democrat who has ever at any time been actively engaged in politics was represented, and I met some of the men who were for Bryan in 1896 and 1900; men who were for Bryan in those years; men who have been working for Bryan, and in fact, every faction of the party, was represented at this conference, and the most perfect harmony prevailed."

"From the reports received I am positive that Illinois is an excellent debating ground. The party in Illinois grows wider daily and the matter will be decided in the State. It is now too late for the two decisions to harmonize. Naturally, the Democrats will get the better of the election of affairs, and we expect to carry the State."

M'LAURIN INDORSES LYNCHING

Says It Is Only Reasonable Atone-

ment in the Scene.

REPUBLICAN SPECIAL.
Meridian, Miss., Sept. 21.—Lynchings are the only reasonable atonement for murders and criminal assaults in the South has been endorsed by United States Senator A. J. McLaughlin of Mississippi in the defense of W. C. SAYS MONROE DOCTRINE NO LONGER FILLS ITS INTENDED PURPOSE

Principle of Present Day Interpretation Applies as Much to China as to South American Republics, Is Opinion of Doctor Carlos Pellegrini, Former President of Argentine—European Influences Far Greater Than American.

DOCTOR CARLOS PELLEGRINI, Former President of the Argentine Republic, who is visiting in St. Louis.

"The Monroe Doctrine no longer applies to the South American Republics under its interpretation today than it does to China. The United States has not intervened where its interests are at stake, the same as anywhere else, but the South American Republics have not reached a stability which in a measure delegates the Monroe Doctrine, which in its purpose and effects is entirely different today from the original document drawn up by James Monroe."

Doctor Carlos Pellegrini, former President of the Argentine Republic, leader of the National party and Senator from the State of Buenos Ayres, spoke last night at the Washington Hotel of the relationship between the leading North and South American Republics. Doctor Pellegrini, who is a visitor at the World's Fair, and he comes as a sight-seer in his official capacity, although he is probably Argentina's leading statesman. He expects to remain here until the end of the week, when he will return to the Eastern seacoast by the way of Washington and then sail from New York, going to London and Paris.

NEWS AND GOSSIP OF THE PLAYHOUSES.

Richard Mansfield is guarding the titles and characters of two new plays in the season. Last year his production of "Ivan the Terrible" was traded upon in another play, "The Black Prince," which was a success. Mr. Mansfield will play "Ivan the Terrible" and several other pieces of his repertory before he originates a part founded on a great historical character. His new play is a drama to be translated for him.

There is much interest in Blanche Bates' future. With the news that David Belasco was soon to visit her here and bring with him a new play comes the whisper that she is engaged to a well-known Californian.

"This much is known, Bates is coming, and as his contract with Belasco has not expired, it seems more than probable that she is engaged to the star of a new play."

Musical comedy and extravaganza hold full sway in St. Louis just now. The only notable dramatic offering is "The Darling of the Gods," Upstown and downtown the offering is covered with green paint. One little play, "The Darling of the Gods," is a comedy, too, in the Belasco drama.

Williams and Walker are the surprise of the week. Their new "In Dahomey" is a more enjoyable farce and far away better than an earlier version of the same. They are to remain three weeks at the Grand.

When Ned Westburn, the 6-foot stage manager of "Mother Goose," looks like a giant, he is in the hands of the boys. He is who has been in several of the plays. At the matinee the other day he detected two children on the stage without making a sound. He said, "Don't you youngsters ever go on again without your makeup? I fine you one nickel and you are out of the play, not complying with the rules."

"Yeth, thir," lisped the awed children, and they went off. "Yeth, thir," lisped the awed children, and they went off. "Yeth, thir," lisped the awed children, and they went off.

STONE CHRISMAN CASE CONTINUED

Judge Grants Prayer of Plaintiff Because of Absence of Three Witnesses.

COUNSEL SPEAK SHARP WORDS

Politics of Men on Panel From Which Jury Was to Be Selected Plays Important Part in Proceedings.

BY A STAFF CORRESPONDENT.
St. Louis, Sept. 21.—Absence of three witnesses in the Stone Chrisman case today caused Judge Parker to grant the prayer of the plaintiff, who is suing for \$100,000 damages, because of the absence of three witnesses.

The first man on the panel from which the jury was to be selected was Frank P. Walsh, speaking for Chrisman, added in his mild, yet supercilious manner:

"The constitution of the United States is a document of certain value, and among them C. F. Morse of Kansas City, who is one of the absolute owners of the property, is a witness. The plaintiff's application for a continuance would be favorably considered by the court, Frank P. Walsh, speaking for Chrisman, added in his mild, yet supercilious manner:

REPUBLICAN SPECIAL.

New York, Sept. 21.—President J. J. Hill of the Great Northern, who July 27 gave out an estimate of 500,000,000 bushels for the country's wheat crop, and who yesterday predicted only 200,000,000 bushels of corn, is now making a popular estimate of 2,000,000,000 bushels of wheat and 2,000,000,000 bushels of corn.

"The estimate of the wheat crop which I made some weeks ago, placing the aggregate for spring and winter wheat at 500,000,000 bushels, was made at a time when deterioration was in progress, and in view of this deterioration it must now be modified."

"Subsequent damage from various causes has reduced the yield to about 2,000,000,000 bushels, or at the extreme, 2,000,000,000 bushels. There will not be more than 2,000,000,000 bushels of wheat, and the estimate of 2,000,000,000 bushels for the corn crop will not be exceeded."

REPUBLICAN SPECIAL.
Omaha, Neb., Sept. 21.—The Union Pacific and Burlington railroads today made public their estimates on the Nebraska corn crop for this year, and both roads have arrived at practically the same figure, the Burlington making the number 215,000,000 bushels, and the Union Pacific 212,000,000 bushels.

The Burlington's report was compiled by the Agricultural Department of the University of Nebraska. Both agree that the quality of the grain is much superior to that of last year, and that the grain will grade very high.

The figures given by the railroads are many millions less than those of ordinarily well-informed grain dealers, who variously estimate the Nebraska corn crop at from 250,000,000 to 300,000,000 bushels.

Reports from all sections of the State show that the damage done to the corn by last night's cold, the clouds preventing damaging frosts. Cloudy weather prevails throughout the State to-night and no damage is looked for. Ninety per cent of the crop is already past the danger point.
